Part V – Evaluation Criteria & Price Bid issues

1. Evaluation Criteria - The broad guidelines for evaluation of Bids will be as follows:

- a. Only those Bids will be evaluated which are found to be fulfilling all the eligibility and qualifying requirements of the RFP, both technically and commercially.
- b. In respect of Two-Bid system, the technical Bids forwarded by the Bidders will be evaluated by the Buyer with reference to the technical characteristics of the equipment as mentioned in the RFP (Part –II, Para-2). **The compliance of Technical Bids would be determined based on the parameters specified in the RFP and successful onsite demonstration of the offered products/items (if felt necessary & asked) before the technical evaluation committee.** The Price Bids of only those Bidders will be opened whose Technical Bids would clear the technical evaluation stages (including onsite demonstration).
- c. The Lowest Bid will be decided upon the lowest price (on consolidated basis) quoted by the particular Bidder as per the Price Format given at Para 2 below. The consideration of taxes and duties in evaluation process will be as follows:
 - i. In cases where only indigenous Bidders are competing, all taxes and duties (including those for which exemption certificates are issued) quoted by the Bidders will be considered. The ultimate cost to the Buyer would be the deciding factor for ranking of Bids.
 - ii. In cases where both foreign and indigenous Bidders are competing, following criteria would be followed –
 1. In case of foreign Bidders, the basic cost (CIF) quoted by them would be the basis for the purpose of comparison of various tenders.
 2. In case of indigenous Bidders, excise duty on fully formed equipment would be offloaded.
 3. Sales tax and other local levies, i.e. octroi, entry tax etc would be ignored in case of indigenous Bidders.
- d. The Bidders are required to spell out the rates of Customs duty, Excise duty, GST, etc in unambiguous terms; otherwise their offers will be loaded with the maximum rates of duties and taxes for the purpose of comparison of prices. If reimbursement of Customs duty / Excise Duty / GST is intended as extra, over the quoted prices, the Bidder must specifically say so. In the absence of any such stipulation it will be presumed that the prices quoted are firm and final and no claim on account of such duties will be entailed after the opening of tenders. If a Bidder chooses to quote a price inclusive of any duty and does not confirm inclusive of such duty so included is firm and final, he should clearly indicate the rate of such duty and quantum of excise duty included in the price. Failure to do so may result in ignoring of such offers summarily. If a Bidder is exempted from payment of Customs duty / Excise Duty / GST duty up to any value of supplies from them, they should clearly state that no excise duty will be charged by them up to the limit of exemption, which they may have. If any concession is available in regard to rate/quantum of Customs duty / Excise Duty / GST, it should be brought out clearly. Stipulations like, excise duty was presently not applicable but the same will be charged if it becomes leviable later on, will not be accepted unless in such cases it is clearly stated by a Bidder that excise duty will not be charged by him even if the same becomes applicable later on. In respect of the Bidders who fail to comply with this requirement, their quoted prices shall be loaded with the quantum of excise duty, which is normally applicable on the item in question for the purpose of comparing their prices with other Bidders. The same logic applies to Customs duty and GST also.
- e. In import cases, all the foreign quotes will be brought to a common denomination in Indian Rupees by adopting the exchange rate as BC selling rate of the State Bank of India on the date of the opening of Price Bids.

f. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price will prevail and the total price will be corrected. If there is a discrepancy between words and figures, the amount in words will prevail for calculation of price.

g. The Buyer reserves the right to evaluate the offers received by using Discounted Cash Flow method. In case cash flow involves more than one currency, the same will be brought to a common denomination in Indian Rupees by adopting exchange rate as BC selling rate of the State Bank of India on the date of the opening of Price Bids.

h. **The Lowest reasonable, economical & acceptable bids on consolidated basis (i.e. including all categories requisite items & services, as mentioned in Part-V Para 2 of this RFP/proposal document)** will be considered further for placement of contract/Supply Order after complete clarification and price negotiations as decided by the Buyer. The Buyer will have the right to award contracts to different Bidders for being lowest in particular items, if situation desires. The Buyer also reserves the right to do apportionment of quantity, if it is convinced that Lowest Bidder is not in a position to supply full quantity in stipulated time.

i. Any other criteria as applicable to suit a particular case.

j. Rates must be quoted in Indian rupees in import cases, all the foreign quotes will be brought to a common denomination in Indian Rupees by adopting the RBI/SBI/GOC declared exchange rate.

2. **Price Bid Format:** The Price Bid Format is given below and Bidders are required to fill this up correctly with full details:-

5. Special note on security of bids

a. Security related functionality has been rigorously implemented in ETS in a multi- dimensional manner. Starting with 'acceptance of registration by the service provider', provision for security has been made at various stages in electronic tender's software. Specifically for bid submission, some security related aspects are outlined below:

b. As part of the Electronic Encrypted™ functionality, the contents of both the 'Electronic Forms' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is recommended that a separate Pass-Phrase be created for each Bid-Part.

c. Typically, each bidder furnishes 'pass-phrase' of the bid-part to be opened during a particular online public tender opening event (TOE) online during the TOE itself, when demanded by the concerned tender opening officer. A bid cannot be opened without a correct pass-Phrase.

d. It may also be noted that if a bidder fails to furnish the correct Pass-Phrase during the TOE of Technical Part, the bid shall be rejected. If the bidder fails to furnish the correct Pass-Phrase during the TOE of Financial Part, not only shall the bid be rejected but also the EMD shall be forfeited.

e. There is an additional protection with SSL Encryption during transit from the client-end computer of a Contractor organization to the e-tendering server/ portal.

6. Online Public Tender Opening Event (TOE)

- a. E-tendering mode only through e tendering portal (www.tenderwizard.com/iimrohtak)
- b. ETS offers a unique facility for 'Online Public Tender Opening Event (TOE)'. Tender Opening Officers as well as authorized representatives of bidders can attend the Online Public Tender Opening Event (TOE) from the comfort of their offices. For this purpose, representatives of bidders (i.e. Contractor organization) duly authorized are requested to carry a Laptop and Wireless Connectivity to Internet.
- c. Every legal requirement for a transparent and secure 'Online Public Tender Opening Event (TOE)' has been implemented on ETS.
- d. As soon as a Bid is decrypted with the corresponding 'Pass-Phrase' as submitted online by the bidder himself (during the TOE itself), salient points of the Bids are simultaneously made available for downloading by all participating bidders. The tedium of taking notes during a manual 'Tender Opening Event' is therefore replaced with this superior and convenient form of 'Online Public Tender Opening Event (TOE)'.
- e. ETS has a unique facility of 'Online Comparison Chart', which is dynamically updated as each online bid is opened. The format of the chart is based on inputs provided by IIM ROHTAK for each Tender. The information in the Comparison Chart is based on the data submitted by the Bidders. A detailed Technical and/ or Financial Comparison Chart enhance Transparency. Detailed instructions are given on relevant screens.
- f. ETS has a unique facility of a detailed report titled 'Minutes of Online Tender Opening Event (TOE)' covering all-important activities of 'Online Tender Opening Event (TOE)'. This is available to all participating bidders for 'Viewing/ Downloading'.

7. Other Instructions: For further instructions, the Bidder should visit the home page of the portal (www.tenderwizard.com/iim-rohtak) and go to the User-Guidance Centre. The help information provided through 'ETS User-Guidance Centre' is available in three categories – Users intending to Register / First-Time Users, Logged-in users of Buyer organizations, and Logged-in users of Contractor organizations. Various links are provided under each of the three categories.

8. Important Note: It is strongly recommended that all authorized users of Contractor organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

9. The following 'FOUR KEY INSTRUCTIONS for BIDDERS' must be attentively adhered to:

- i) Obtain individual Digital Signature Certificate (DSC or DC) well in advance of tender submission deadline on ETS
- ii) Register your organization on ETS well in advance of tender submission deadline on ETS
- iii) Get your organization's concerned executives trained on ETS well in advance of tender submission deadline on ETS
- iv) Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, etc.) While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth instruction is relevant at all times.
